1. Introduction

These terms and conditions form the Energy Supply Agreement (ESA) and cover the sale of energy to you at your Supply Address. This agreement is only applicable for your current Supply Address and may include further details provided in an Energy Schedule.

In some circumstances you may be supplied through an embedded network, in this case the Schedule is assigned across the whole Embedded Network as a Distributor directive.

This Agreement is between Locality Planning Energy, trading as LPE (we, our or us) and the customer (you or your) for the supply of energy and comprises of the terms outlined in these Terms and Conditions and your Schedule.

If we're your retailer for more than one Supply Address, then you have a separate agreement for each Supply Address.

We have separate Agreements and Schedules for the supply of electricity and gas and separate bills will be issued, unless you're within an embedded network where you may be issued bills with combined energy usage.

2. Contact us

Speak to our friendly customer service team on 1800 040 168 Monday to Friday 08:30am – 05:30pm AEST.

To contact us via email info@localityenergy.com.au

3. How this Agreement applies to you

This Agreement applies to Small Customers and Other Customers 'on market' and including inside an embedded network.

If you're a Small Customer, additional regulatory protections apply to you. Whether you are a Small Customer is determined by the Regulatory Requirements. Currently, the Regulatory Requirements provide that you're a Small Customer if:

- you are a Residential Customer in Queensland or New South Wales; or
- you are a Business Customer in Queensland or New South Wales who uses less than 100 MWh of electricity per year and/or less than 1 TJ of gas per year.

This Agreement does not cover the physical connection of your Supply Address to the Distribution System. Your Distributor will provide this service under another contract. Contact your Distributor directly in the first instance in the event of a fault or emergency. Their number is printed on your bill.

4. When this Agreement starts and ends

This Agreement starts on the Acceptance Date and continues until you or we end it. For information about how this Agreement can end see clauses 20 and 21.

This Agreement starts on the date you accept our offer to supply you with Energy, or if you are an existing customer, on the date you agree to be supplied under this new Agreement.

We will start to sell you energy and other products on the Supply Start Date which will either be:

- the end of the cooling off period (see clause 5);
- the date your Supply Address transfers to us (for more details of the transfer process and why it may be after the acceptance date see clause 7); or
- another date we agree with you.
- you have satisfied any pre-conditions set out in the Relevant Laws; and
- metering equipment has been installed (if it is not already in place) at your Supply Address which complies with the Relevant Laws; and
- your assigned meter identifier, being the unique number that identifies your electricity and/or gas supply address, has been transferred to us and we become responsible for the Energy supplied at your Supply Address under the Relevant Laws.

5. Cooling off period

You can cancel this Agreement during the 10 Business Day cooling off period. The cooling off period starts from the day after:

- the Acceptance Date; or
- you receive this Agreement and the Welcome Pack provided to you with these Agreement Terms.

You can cancel during the cooling off period even though you have signed this Agreement or agreed to it over the phone or online.

Cooling off cannot apply to an Embedded Network transfer as an obligation for continuity of supply is placed on LPE, see transfer process clause 7 for details on transfer to another retailer.

6. Assumptions

When we enter into an Agreement with you, we need to make some assumptions including about the type of meter installed at your property, the amount of energy to be consumed and the tariff charged to us by the Distributor. If we find that any of the assumptions on which we based our offer are incorrect, we will make a revised offer to you based on the correct information. If we send you a revised offer your cooling off period will restart on the date you received the revised offer.

7. The transfer process

If we are not currently your retailer for your Supply Address, we'll arrange for your Supply Address to transfer to us from your current retailer. You will continue to be supplied by your current retailer until the transfer to us is complete.

You agree to us taking all necessary steps to transfer you.

We may stop the transfer and cancel this Agreement before the transfer is completed:

- where the transfer doesn't occur within three months of the Acceptance Date;
- where you don't meet our credit requirements;
- where any information or details are incorrect; or
- for any other reason if it is not unreasonable to do so. If we do so, we'll let you know, and we may offer you an alternative agreement.

Alternatively, your Supply Address may be within an Embedded Network where LPE have been assigned as the responsible retailer, LPE cannot cancel your transfer or refuse to supply you in this circumstance yet you will still have obligations under clause 17. The assignment of an Embedded Network to LPE from your existing Distributor assigned Billing Agent will transfer your Supply Address to us. You agree to us taking all necessary steps to do so.

8. Your privacy and creditworthiness

We collect, use, hold and disclose your personal, credit related and confidential information (including metering data) where it is required under the Regulatory Requirements in order to provide you with energy and other products and services. We may disclose this information to:

- our agents and contractors (such as data processors and debt collectors);
- your Distributor or Embedded Network Operator; and
- other energy retailers.

We may also collect sensitive information about you or third parties (for example if you notify us that life support equipment is used at your Supply Address).

If you don't provide this information to us, we may not be able to provide our products or services to you. Where possible, we'll collect this information from you, but we may get it from third parties (including credit reporting bodies).

We may also disclose your information to and collect your information from information matching providers, for example to verify the information you've provided to us and confirm your identity.

If you provide us with personal information about another person (such as an additional account holder), please make sure you tell them their information has been provided to us and make them aware of the matters in this privacy statement.

We may conduct a credit check on you to assess your creditworthiness and to help us decide whether to provide our

services to you on credit. In accordance with the Relevant Laws, we may disclose your personal information to credit reporting bodies to obtain a consumer credit report about you. If we are not satisfied with your creditworthiness, we may require you to provide a Security Deposit under clause 9.

9. Security Deposits

Depending on your creditworthiness you may be required to pay us a Security Deposit. If you're a Small Customer, we must pay you interest on the Security Deposit in accordance with relevant laws and/or Regulatory Requirements.

We may use your Security Deposit and any interest earned on it to offset any amount you owe us under this Agreement if you fail to pay a bill by the Due Date.

If we use your Security Deposit or any interest to offset amounts owed to us, we will notify you.

If we no longer need your Security Deposit, we'll return it and any interest through a credit on your bill or, if you have closed your account through our standard processes to refund account credits.

LPE will not ask an Embedded Network customer to pay a deposit on transfer.

10. Energy Schedule

Your Agreement may include an Energy Schedule. An Energy schedule may include benefits or features for a limited time or a term length.

We will contact you about your Schedule if it is nearing expiry. We may offer to extend your existing Schedule or offer to give you a new Schedule. If so and if you do not let us know within 28 Calendar Days that you do not want to take up the extended or new Schedule, we'll consider you have agreed to it. The extended or new Schedule will then apply and become part of this Agreement.

As your Schedule is part of your Agreement, it will also end when this Agreement ends.

11. Concessions and Rebates

You may be eligible for a concession or rebate on your bill if you are the primary account holder on your energy account.

We facilitate concessions on behalf of the government and the responsible department.

LPE cannot be held responsible for your eligibility or any changes related to your concessions made by the responsible department. We will inform you where we are required to do so and will make any changes automatically when advised by the responsible government department.

For further information about the concessions and rebates that may be available, please contact LPE or contact the appropriate government departments.

12. What you have to pay

You must pay us for the Energy we sell to you at your Supply Address and for any other goods or services we provide to you.

You must also pay us any additional service charges; and any charges that we pay on your behalf, such as those charges we pay to your Distributor, your Metering Service Provider and any other person.

The charges may include amounts for the sale and supply of energy described below.

- **Supply charges** – daily charges, regardless of how much energy you use.
- **Energy usage charges** – charges based on the amount of energy you use. Also referred to as consumption.
- **Distributor charges** – any amounts that your Distributor charges us for services provided at your Supply Address and which are not already incorporated into the supply or energy usage charges, including but not limited to; a disconnection fee, connection fee and special meter reading fee. Your Distributor sets these amounts.
- **Metering charges** – any amounts that a Meter Service Provider charges us for metering-related goods or services provided at your Supply Address and which are not already incorporated into the supply charges or energy usage charges, including but not limited to; a disconnection fee, connection fee, meter work fees and meter reading fees.
- **Taxes** – any taxes (including GST), duties, imposts, levies, regulated charges, costs, fees and charges that we must pay (directly or indirectly) when we sell and supply energy and other goods and services to you.
- **Card payment fee** – a fee for paying by credit card or another payment method where we incur a merchant services fee.
- **Late payment fee** – an amount to compensate us for our costs and losses if you pay your bill (or part of your bill) after the Due Date.

- **Account establishment fee** – a fee for transferring your energy supply to us from another retailer or setting up your account with us for the first time.
- **Payment processing fee** – a fee for paying your bill over the counter in person at a third-party organisation or outlet or via PostBillPay.
- **Paper bill fee** – a fee for receiving a bill in the mail.
- **Exit fee** – if you are a Business Customer, a fee for ending your Schedule (if any) early.

If the fee is applicable it will be set out in your schedule or explained to you before you incur them. Information relating to fees are outlined in our Standard Fee Schedule, and available online: www.localityenergy.com.au/site/customers/our-standard-fee-schedule

In some circumstances you must also pay us the other amounts described below:

- Any reasonable costs that we incur for arranging network and connection services for you. We'll let you know these amounts before we arrange the services, where possible.
- If you breach this Agreement or the Regulatory Requirements, any reasonable costs we incur as a result of that breach, except where those amounts are included in one of the Charges (such as the late payment fee).
- Any fees or additional costs we incur if your payment is dishonored or reversed.
- Any other amounts referred to in this Agreement.

We can vary the amount, nature and structure of any of the charges at any time by notice to you or make any changes according to the Schedule.

Unless you have taken up a Schedule which includes a fixed amount for your energy usage and supply charges, even if we say that we won't vary certain Charges in your Schedule, we can still vary any of the Charges if:

- any of the information we used in determining the Charges for energy is incorrect (such as your supply area or meter type); or
- the meter at your Supply Address is changed from an accumulation meter to an interval meter.

The notice of variation may be by a message on your bill. We'll notify Small Customers in Queensland, at least 10 Business Days before the variation where the Charges are increasing; otherwise, as soon as practicable, but no later than your next bill after the variation.

If the Charges change during a Billing Period, then we'll calculate your bill for that period on a per day basis and we will use average daily usage data over a known Billing Period (or other period depending on availability of meter data) to do so.

13. Meters and meter reads

At a minimum, we will read your Meter once in every 12 month period, unless we are unable to read your Meter because we do not have safe access to your Meter, or we are unable to reliably base your bill on a reading of the Meter. If we are unable to access your Supply Address to conduct a final meter read (where applicable) because you have not provided us such safe and unhindered access, this Agreement will not end until we have issued you a final bill and you have paid any outstanding amount for the sale of energy. You will be responsible to pay us for energy incurred up until this final reading takes place. If this Agreement ends, subject to clause 20 and 21, we will send you a final bill containing any outstanding payments.

You must inform us immediately of any hazards or requirements affecting access to the Meter or associated equipment as soon as possible. If you have been responsible for us being unable to read the Meter and you later request an actual reading, you may be charged an Additional Service Charge for the read.

Where you have a Smart Meter and you have requested that the telecommunications network connection to your Smart Meter be deactivated; or there is no active telecommunications network connection at your Supply Address. You may be charged a fee to deactivate the telecommunications (if applicable) and ongoing physical Meter reading charges.

Rights and obligations accrued before the end of this Agreement continue despite the end of the Agreement, including any obligations to pay amounts to us.

The Meter at your Supply Address is the property of the Metering Service Provider, the Distributor or us (as the case may be).

14. Bills and billing cycles

Your bill will include itemised charges you are required to pay under this Agreement, including the rates and charges and all information required under the Relevant Laws to allow you to understand your usage, charges, payment options and other important information.

We will issue your bill at least quarterly; or if you have a Smart Meter, monthly, unless: you have requested to be billed quarterly; or your Smart Meter does not have active telecommunications, in which case you will be billed at least quarterly; or as otherwise agreed between you and us.

We may change the billing frequency in accordance with the Relevant Laws.

If your bill is based on an estimate of your usage and we later have a measurement of your actual usage:

- we will adjust a subsequent bill for the difference between the estimate and your actual usage if you're a Small Customer, and may do so if you're an Other Customer, except

- if your bill is based on an estimate because you fail to give us access to your meter. In this case we may charge you an additional fee if you ask for a bill based on your actual usage.

15. Notification, communication and bills

All notices and bills under this Agreement must be given in writing (email or hardcopy), unless this Agreement or Relevant Laws say otherwise, at the last address nominated by you, which may be an email address; to a person authorised in writing by you to act on your behalf, at the address specified by you (which may be an email address).

We may also send you electronic messages (such as email or SMS) or call you to provide information and notification relating to your supply.

Our contact details for you to contact us or issue a notice to us are as set out in our bill to you, or as otherwise notified to you from time to time.

We'll send your bill to the address you provide us. The method of delivery can be email or post. If you don't provide an address or we can't contact you at that address (e.g. your bill is returned to us, or we cannot contact you via other means), we will send the bill to the Supply Address and you will be deemed to have received it.

According to your Schedule which includes an amount for your energy usage and supply charges will be based on the amount of energy you use during a Billing Period. Your usage will be determined in accordance with the Regulatory Requirements, generally by the Distributor or meter data provided to us measuring the amount of energy used by reading the meter at your Supply Address, or by estimating your usage.

You must pay each bill in full and on time which is by the Due Date or if you have a payment plan make payments in accordance with it. There are many options on how to pay your bill, the options are listed on your bill.

If you can't pay by the Due Date or are experiencing financial difficulties, you must let us know as soon as possible. We can arrange a payment plan or have other options that might help. We may also be able to give you information about government support.

If you don't pay by the Due Date may do one or more of the following:

- apply any Security Deposit (see clause 9 for more details);
- disconnect your energy supply (see clause 19 for more details);
- ask a debt collection agency to obtain the payment from you;

We may also rely on any other rights we have under this Agreement

16. Review your bill

Please review your bills carefully. If you believe there is a discrepancy with a bill, such as an incorrect discount, read or meter type, please let us know as soon as you can. If you'd like us to review your bill, please request it as soon as you are aware of the discrepancy.

If the review finds the bill is correct, you must pay the unpaid amount. If the review finds the bill is incorrect, we'll correct the bill under review.

Unless one of the exceptions below applies, if you're undercharged (which includes not being charged), you'll only have to pay the amount that should have been charged in the nine months before we notify you of the undercharge. The exceptions are:

- we can recover all amounts undercharged as long as it is not unreasonable to do so; or
- if the undercharging is because of your fault or unlawful act or omission, in which case we can recover all amounts undercharged and may also charge you interest to cover costs or losses we incur as a result of the undercharging as long as it is not prohibited by the Regulatory Requirements.

Where your bill has been based on an estimation of your consumption, you may request an adjustment to your bill by providing us with your own reading of the Meter (assuming your energy Meter is not an interval Meter). We will issue you with an adjusted bill if:

- we receive your reading of your Meter before the Due Date; and your reading is in accordance with our guidance and requirements
- we will promptly notify you where your self-read has not been accepted and explain to the customer the specific reason(s) for not accepting it.

17. Your obligations

Title and risk in the energy supplied under this Agreement will pass to you at the point of connection between the distribution system and your Supply Address. You must comply with the Regulatory Requirements that apply to you.

You must make sure:

- your name, Supply Address and contact details (including the address you choose for notices and billing) are correctly provided to us;
- any other information you give us are correct;
- you tell us promptly, if you become aware of any change that materially affects access to your meter or other equipment involved in providing the metering services at your Supply

Address; and

- you let us know if any information you've given us changes.

You must give us and other relevant people (including your Distributor and Meter Service Provider) safe, convenient and easy access to the Supply Address and the meter at the Supply Address for purposes relevant to the sale and supply of energy, including to:

- read, install, inspect, test, repair, maintain, alter or replace a meter; or
- connect, disconnect or reconnect energy supply at the Supply Address.

You must also:

- take reasonable steps to limit any loss or damage you suffer in connection with this Agreement;
- make sure the energy infrastructure at your Supply Address is in good condition and not damaged or interfered with in any way;
- allow only appropriately qualified and accredited people to carry out any work in connection with that energy infrastructure;
- not tamper with or bypass your meter, or allow anyone else to do so; and
- not interfere with, disconnect, displace, remove or replace or damage the meter or the distribution system, or allow anyone else to do so.

You acknowledge that the meter is owned by a third party (generally your Distributor, Meter Service Provider or us) and the title will not pass to you at any time.

18. Energy distribution and your supply

As an energy retailer we have no control over the physical supply of energy. Where we refer to supplying you with energy or connecting your Supply Address, this means we'll arrange for your connection.

The Distributor is responsible for the physical supply of energy (including the quality and reliability of the energy supplied) and the connection of your Supply Address.

This means that:

- we're not responsible for the safety, quality, continuity or reliability of your energy supply; and
- to the extent permitted by law, we make no promises or representations to you about these things, other than those set out in this Agreement.

The quality, continuity, reliability of your energy supply is subject to a variety of factors. These include accidents, emergencies, weather conditions, vandalism, system demand, the technical limitation of the distribution system and acts of the Distributor.

Accordingly, your energy supply may be interrupted, disconnected, reduced or limited. Some examples of when this may occur include:

- if required by your Distributor or another person;
- if required by us, your Meter Service Provider, Distributor or another person in order to install, maintain, repair or replace a meter, for inspections, maintenance, or testing;
- in an emergency or for safety reasons;
- due to a failure in the equipment used to supply your energy;
- at the direction or request of a regulatory body; or
- if there is not enough energy available to supply to you.

We'll try to keep you informed if this happens, and we will follow any notice requirements set out in the Regulatory Requirements.

You must cooperate with any reasonable requests your Distributor makes of you and allow your Distributor to enforce its rights under the Regulatory Requirements.

19. When you could be disconnected

If you have given us up to date contact details, we'll give you notice before we disconnect you. If you're a Small Customer, we'll also follow any procedures set out in the Regulatory Requirements.

We may arrange for disconnection of your energy supply in the following circumstances, unless we're prohibited from doing so under the Regulatory Requirements:

- if you ask us to;
- if you're a Small Customer and you fail to pay Charges or other amounts on your bill related to the sale of energy by the Due Date;
- if you fail to pay any Charges or other amounts on your bill by the Due Date;
- if your meter has not been able to be read for three consecutive meter readings due to a lack of access to the Supply Address;
- if you have refused to provide a Security Deposit, when we have had reasonable grounds to request one;
- if you've used energy at the Supply Address fraudulently, or intentionally used it contrary to energy laws;
- if you haven't agreed to an instalment plan or other payment option when we have required you to do so; or
- if you haven't paid in accordance with an agreed payment plan or other payment option.

20. Ending this Agreement

We can end this Agreement by giving you 20 Business Days' notice.

You can end this Agreement by:

- transferring your energy supply at your Supply Address to another retailer. This Agreement will end when your Supply Address transfers to the other retailer;
- requesting us to disconnect your Supply Address. This Agreement will end 10 Business Days after disconnection;
- you move out of your Supply Address.

This Agreement will also end:

- 10 Business Days after you've been disconnected, if you don't have a right to be reconnected;
- where another person starts being supplied with energy at the Supply Address with us or with another retailer;
- if we are no longer entitled to sell energy due to the Distributor assigned retailer changing; or
- if we're no longer entitled to sell energy due to a Last Resort Event.

21. What happens when this Agreement ends

If this Agreement ends and you continue to take supply from us, we will continue to sell you energy on the same terms of this Agreement until you enter into a new agreement with us or transfer your Supply Address to a new energy retailer or someone else becomes responsible for the energy supply at your Supply Address under a new energy agreement with us, and all of the provisions of this Agreement will survive this Agreement ending for this purpose.

After you enter into a new agreement with us or transfer your Supply Address to a new energy retailer or someone else becomes responsible for the energy supply at your Supply Address under a new agreement with us, the provisions of this Agreement about privacy, liability, notices, governing law, payment and Charges will survive this Agreement ending. This Agreement ending will not prejudice any rights, obligations or remedies that you or we have that accrued before the Agreement ends.

22. What happens if you move

If you're moving from your Supply Address, you need to give us at least 5 Business Days' notice. However, if your Supply Address is within an LPE Embedded Network only 3 days' notice is required.

You'll also need to give us an address where we can send your final bill. We will arrange for your meter to be read at the time agreed with you (or as soon as possible after if your meter can't be accessed then).

If you move this Agreement (including any Schedule) it will end from the date you do so.

If you don't tell us that you're moving, or you don't provide access to your meter, you'll need to pay us the Charges and any other amounts payable under this Agreement for the Supply Address

until:

- we find out that you've moved, and your meter has been read;
- you tell us you're moving, and your meter is read;
- the energy supply is disconnected or transferred to another retailer; or
- the date you or someone else becomes responsible for the energy supply at the Supply Address under a new agreement with us.

23. Feed-in tariffs

If your Agreement is for electricity and you have a solar photovoltaic (PV) system installed at your Supply Address, we may pay you a feed-in tariff for any electricity your system generates which is exported to the electricity grid. If we pay you a feed-in tariff, you'll see the amount of the feed-in tariff on your bill.

There are two types of feed-in tariffs:

- feed-in tariffs we are required to offer under the Regulatory Requirements; and
- our voluntary feed-in tariffs, which may be under a Schedule.

We may pay you one or both of these feed-in tariffs.

If we pay you a voluntary feed-in tariff that is not under a Schedule, we may vary the amount of, or cancel, the feed-in tariff at any time by notice to you. If we pay you a voluntary feed-in tariff that is under a Schedule, we may vary the amount of, or cancel, the feed-in tariff in accordance with your Schedule and these Agreement Terms.

If we pay you a feed-in tariff we are required to offer under the Regulatory Requirements, we may:

- vary the amount of the feed-in tariff by notice to you where we're not prevented from doing so by the Regulatory Requirements;
- stop providing you with the feed-in tariff if:
 - you stop being eligible for the feed-in tariff;
 - we are entitled to do so under or because of a change in the Regulatory Requirements; or
 - the relevant feed-in tariff scheme ends.

If any of these occur, then we'll stop providing you with the feed-in tariff from the date you stopped being eligible, the Regulatory Requirements changed, or the scheme ended (as applicable). This may be before the date we give you notice.

You agree that the terms of this Agreement apply to your feed-in tariff, except if you have a separate agreement with us for your feed-in tariff. In particular:

- we will give you notice of any change to your feed-in tariff as soon as practicable, but no later than your next bill after the

variation. The notice may be by a message on your bill (see clause 15);

- if the amount of your feed-in tariff changes during a Billing Period then we'll calculate your feed-in tariff for that period on a proportionate basis; and
- we'll review the feed-in tariff on your bill in accordance with clause 15. This means overpayment or over crediting of your feed-in tariff will be treated in the same way as an undercharge.

24. Changing this Agreement

We can vary this Agreement where:

- we give you 20 Business Days' notice of the variation; and
- you accept the change by not terminating the Agreement during that period.

We may also vary this Agreement by notice to you if we need to do so because the Regulatory Requirements change.

25. Events beyond your or our control

In this Agreement, Force Majeure means, for an Impacted Person, any event or circumstance occurring after the Acceptance Date that:

- is not within the reasonable control of the Impacted Person;
- could not be prevented, overcome or remedied by the exercise of reasonable effort by the Impacted Person; and
- results in the Impacted Person being unable to meet or perform its obligation under this Agreement.

Notwithstanding the paragraph above, the failure or inability of the Impacted Person to pay any amount due and payable under this Agreement does not constitute Force Majeure.

The Impacted Person will be excused for not meeting or performing its obligations during the time and to the extent that Force Majeure prevents it from doing so (other than an obligation to pay money).

The Impacted Person must:

- try to remove, overcome or minimise the effects of Force Majeure as soon as it can; and
- give the other person prompt notice, including any information required by the Regulatory Requirements.

If the effects of such an event are widespread, we may give you a prompt notice by making the necessary information to you. We'll try to do this as soon as practicably possible.

26. This Agreement within Regulatory Requirements

If any matter that is required to be included in this Agreement by a Regulatory Requirement is not expressly dealt with in this Agreement, the Regulatory Requirement is incorporated as if it were a term of this Agreement.

If there is any inconsistency between this Agreement and a Regulatory Requirement, then this Agreement will prevail to the extent of the inconsistency, unless a Regulatory Requirement provides that it must prevail.

27. Liability

Subject to the Regulatory Requirements:

- we're not liable to you for any loss or damage in connection with or arising out of this Agreement, except for Small Customers to the extent that we cause that damage or loss because we breach this Agreement or are negligent;
- if you're an Other Customer we're not liable to you for any Excluded Loss;
- you are not liable to us for Excluded Loss, except if you are an Other Customer in which case you are liable to us for any Excluded Loss we incur or suffer pursuant to an indemnity we give your Distributor which arises from your act or omission;
- we're not liable to you for any loss or damage in connection with or arising out of any act or omission of your Distributor;
- you indemnify us if we or any third party suffer any loss or damage in connection with or arising out of your breach of this Agreement or negligence;
- you indemnify us and any third party against any liability in connection with or arising out of the use of energy supplied under this Agreement after ownership passes to you; and
- if you are an Other Customer, you indemnify us against any liability we incur or suffer (including Excluded Loss) in connection with or arising from any act or omission by you to the extent we have indemnified your Distributor for that liability.

28. Warranties and rights

To the extent permitted by law, the only warranties that apply to this Agreement are those that are expressly set out in the Agreement. However, you have non-excludable rights under the Australian Consumer Law.

If any part of this Agreement is unlawful, unenforceable or invalid, that part will not apply, but the rest of the Agreement will continue unchanged.

29. Life Support

If a person living or intending to live at your Supply Address requires life support equipment you must register your Supply Address, please contact us or your Distributor. Written confirmation from a registered medical practitioner that a person residing or intending to reside at the Supply Address requires life support equipment, is required.

If you do not provide us or your Distributor with confirmation from a

registered medical practitioner, the Supply Address may cease to be registered as having life support equipment

You must tell us or the Distributor if the life support equipment is no longer required at your Supply Address.

We may from time to time require written confirmation that there is still life support equipment present at your Supply Address in order for you to remain registered.

30. Customer service, feedback and complaints

If you have an enquiry or, feedback contact customer service on 1800 040 168 or info@localityenergy.com.au

If you have a complaint or dispute; including but not limited to your supply, billing or any marketing activity, contact us at complaints@localityenergy.com.au

We'll handle your complaint and let you know the outcome of it, in accordance with our dispute resolution policy.

If you are not satisfied with the way your complaint has been resolved, you may contact the energy ombudsman in your state.

35. Interpretation

Unless otherwise stated:

- a reference to this document or another instrument includes any variation or replacement of any of them;
- the singular includes the plural and vice versa;
- a reference to a statute, ordinance, code or other law includes regulations and other instruments under it and consolidations, amendments, re-enactments or replacements of any of them;
- a person includes any type of entity or body or persons, whether or not it's incorporated or has a separate legal identity, and any executor, administrator or successor in law of the person;
- the words 'include' or 'including' and any variation of those words must be read as if followed by the words 'without limitation' and so, if an example is given of anything, the scope is not limited to the example; and
- headings are for convenience only and do not affect the interpretation of this Agreement.
